

# COVID-19 WHAT TO DO?

## QUARANTINE VS. ISOLATION

*Based on Child-Approved Pfizer Vaccine*

I JUST FOUND OUT THAT I:

WAS A  
CLOSE  
CONTACT

TESTED  
POSITIVE FOR  
COVID

I was fully  
vaccinated  
within the past  
five months OR  
boosted

I was fully  
vaccinated over  
five months ago  
OR I am not  
boosted OR I'm  
unvaccinated

I am symptomatic

I am NOT  
symptomatic

You do NOT  
need to  
quarantine  
unless you have  
symptoms

Stay home for 5  
days after last  
contact with  
infected person

STAY HOME: at  
least 5 days after  
symptoms first  
appear

STAY HOME: at  
least 5 days  
since positive  
test result

Wear a mask  
around  
everyone for  
10 days

Wear a mask  
around  
everyone for 5  
additional days

STAY HOME:  
until at least 24  
hours with no  
fever without  
medication

Continue to wear  
a mask for at least  
5 more days  
around all others

Get tested on  
day 5 if possible

Isolate from  
everyone,  
especially those  
who are high risk

STAY HOME:  
until all  
symptoms have  
improved

Notify AAD

Watch for fever,  
cough, shortness  
of breath or  
other symptoms

Get tested on  
day 5 if possible

Continue to wear  
a mask for at  
least 5 more days  
around all others

Notify AAD
